Can benefit the student who does not process the formation of his/her letters correctly, i.e., starts the letter o on the baseline. The line-spacing on these notebook pages is slightly wider than wide-ruled notebook paper. The font used was designed by Alice Nine to give the feel of hand-printed letters. Alice Nine

Alice Nine, an educational consultant and author, has a tenacious focus on literacy. Her instructional strategies are practical and common sense, founded on research-based principles.

In the 1980s, Alice Nine began searching for a more effective way to teach language skills. Her search led her back in history to teachers who more than 100 years ago did so much with so little in American one-room schoolhouses. As she read their diaries and studied their textbooks, she increased her own knowledge of English and made dramatic changes in her approach to teaching reading and writing, integrating the traditional threads of language instruction (phonics, handwriting, spelling, grammar) into a single lesson time. This integrated instruction grew student knowledge and skills, simultaneously impacting both reading and writing. The response and the success of her students were amazing.

Out of her personal experiences, a desire to help other teachers secure the same success for their students was conceived. As she shared her knowledge and experiences, this desire gave birth to *Johnny Can Spell & Johnny Can Write*, and later *AliceNine Grammar*, also referred to as *Grammar Boot Camp*.

Alice Nine has traveled nationally and internationally to conduct hundreds of workshops and countless in-services, awareness sessions, and convention presentations.

She has written *Johnny Can Spell Teacher's Guide*, *Johnny Can Write Teacher's Guide*, *Grammar Applications*, the seven-volume *Johnny Can Spell & Write Lesson Planner Series*, and the four-volume *Johnny Can Spell & Write Word Analyses Series*—totaling fourteen binders ranging from 200 to 450 pages each. Thousands of teachers use her materials as part of their language arts instruction and participate in ongoing professional learning at the online *Alice Nine Professional Learning Center*. (Enter the Center from www.alicenine.net.)

In 2018, Alice Nine launched her online, subscription-based Academy at academy.alicenine.net. She has created over 1800 student-facing videos for blended instruction or remote / at-home learning for K-5 in phonics, spelling, word study, grammar, sentence writing.

A teacher of teachers, Alice Nine shares from her wealth of knowledge and personal experiences as a teacher, administrator, consultant, parent, and grandparent. In her professional development events, teachers and parents are not only challenged grow their knowledge but are also equipped to make a deeper commitment to excellence in literacy instruction and to their own abilities to contribute to the lives of our children. Attending one of her workshops will revolutionize your teaching forever.

Alice Nine earned a bachelor of science degree in elementary education from Evangel University, Springfield, Missouri, and a master of science degree in education from Portland State University, Oregon. She makes her home in Portland, Oregon.
